Allowable Subject Matter

- 1. The following is an examiner's statement of reasons for allowance: the prior art does not teach or fairly suggest a method of delivering information to multiple networked devices, comprising: receiving a first request for a first item of information from a first networked device, requesting information to be delivered as an ordinary unicast packet; receiving a second request for the first item of information from a second networked device, requesting information to be delivered as an ordinary unicast packet; and forming a combined packet in response to the first and second requests, packet including a packet header comprising a first address used for the first networked device, and second address used for the second networked device, and a data payload that includes at least a part of the first item of information, for delivering the data payload to multiple networked devices, wherein the at least part of the first item of information included in the data payload being destined for reception by the first device in a first ordinary packet, and further wherein the at least part of the first item of information included in the data payload being destined for reception by the second networked device in a second ordinary unicast packet, as recited in independent claims 1, 16, 23, 26, 27, 29, 30 and 32.
- 2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
